

## FEDERATION IS A GREAT POWER

Probabilities That It Will Stop the Threatened Coal Strike.

## AGREED ON A PLAN

Presidents of Railroads and United Mine Workers Are in Conference.

## HANNA IS IN CHARGE

New York, March 27.—The great power of the National Civic Federation was exemplified today when Senator Hanna announced this morning that the Federation had prevailed upon some of the presidents of the large anthracite carrying railroads and anthracite interests, which control practically all of the immense Pennsylvania coal fields to agree upon equal terms for the representatives of the United Mine Workers with a view to take steps to prevent a great coal strike.

Accordingly representatives of the employers and employees' organization went into conference this morning with a full conciliation committee of the federation. Yesterday the miners' side of the trouble was related to the federation; today, the other side told its story.

Thereafter a general discussion ensued. The advisability of the conciliation committee arbitrating or mediating is to be decided upon at this meeting.

The fact that the railroads and the anthracite magnates agreed and did respond to Hanna's invitation to attend today's meeting is a great victory for the federation. In the strike of nineteen hundred these presidents staidly and collectively refused to treat with the mine workers.

## MORGAN TO STOP STRIKE

Convinced By Senator Hanna That Individual Contracts Will Do

New York, March 27.—There is no likelihood of a strike in the anthracite coal district this year. The miners have formulated their demands and the operators probably will meet them half way.

The announcement was made on the best authority after Senator Hanna's conference with J. Pierpont Morgan and the threatened trouble will be averted, mainly through the efforts of the two men who were the chief factors in settling the big strike in the presidential campaign of 1900.

Senator Hanna is one of the most earnest advocates of the cause of arbitration and he presented the situation from his viewpoint with such force that Mr. Morgan was convinced that the operators should yield a point.

Mr. Morgan is in control of some of the coal roads and is in a position to decide upon the course of action to be taken without reference to any other coal magnates. He sees no particular objection to recognizing the United Mine Workers of America, as the union is called, through his signing of contracts with the individuals employed, especially if the present wage scale can be maintained for another year.

## RACE OUTBREAK IN STATE OF ALABAMA

State Militia May Be Called Out to Suppress Riots in or Near Jasper.

Jasper, Ala., March 27.—Information has been received here of a race riot twelve miles east of Jasper late yesterday afternoon. One hundred and fifty shots are reported to have been exchanged, but the casualties cannot be ascertained at this hour. A farmer named Murray came in about 7 o'clock for ammunition, and has returned.

The trouble has been brewing for some time and is the outgrowth of bitter racial feeling, which was further accentuated by white men whipping two negroes on the charge of stealing.

Sheriff Moore has received a telegram from Governor Jenks authorizing him to call out the local militia whenever he thinks it necessary. Captain Hankhead has also been instructed by the governor to respond to the call of the sheriff.

The seat of the trouble is at a negro colony about twelve miles east of here on Warrior River. The negroes have organized and armed themselves and are prepared to make a stubborn resistance.

New Reports Swell the Total of Nelson's Alias McKown's, Alleged, Illegal Marriages.

She today identified a photograph of McKown as that of a man whom she married last January.

They were married in this city. The following day, she says, the man took several valuable articles of jewelry and "went down town to arrange some business affairs." He never returned. Mrs. Coffey says McKown represented himself to be an actor and playwright and a man of wealth.

## FLOUR MILLERS FORM A COMBINE

The National Federation Launched in Chicago, and Officers Elected.

## IT IS NOT A TRUST

Capital of \$400,000,000, and an Output Capacity of 100,000,000 Bbls. Per Year.

## ECKHART PRESIDENT

Chicago, March 27.—Representing a capital of about \$400,000,000 and an output of about 100,000,000 barrels of flour per year, the National Millers' federation was formed yesterday morning. At a meeting held at the Great Northern hotel representatives of thirty of the largest milling concerns of the United States elected officers and directors and formally launched their organization. Bernard A. Eckhart, of Chicago, was chosen president of the federation.

One of the first acts of the delegates was to pass a resolution endorsing the Nelson amendment to the Harter act, the purpose of which is to prevent steamship companies from discriminating against American flour by charging excessive docking rates. The millers also expressed their approval of a bill which has been drawn for the purpose of giving the interstate commerce commissioners power to enforce their rulings.

To Supplant Old Leagues The new organization is designed to take the place of the National Millers' association and the Winter Wheat Millers' League, which now include the most of the flour making concerns of the country. These unions have not yet been disbanded but their representative have been taking part in the local meeting, and are said to have joined willingly in the movement to form a new national federation.

The officers elected at the morning session were: Bernard A. Eckhart, Chicago, president; Henry L. Little, Minneapolis, first vice president; ex-governor E. O. Stannard of Missouri, second vice president; W. C. Ellis, St. Louis, treasurer. A secretary will be appointed later.

Federation Not a Trust "The impression that the National Millers' federation was formed as a combine to regulate prices is wrong," said President Eckhart. "The millers of the country will change their prices individually if they see fit, or will act jointly in the various state and local organizations, but the national body has no such purpose in view. We simply wanted a strong central body to represent the interests of all the millers in fighting for correction of abuses. With such an organization we feel that we can reach congress on appeals for favorable legislation."

## TODAY IS CALLED HOLY THURSDAY

It is a Day of Gifts or Giving for Christ's Sake—Good Friday in Christ Church.

Today is called Holy Thursday. This name in early English became transformed to Maunday or Shere Thursday. "Maunday" meaning the day of gifts or giving for Christ's sake and "shere" meaning the shaving of penitents and the shaving of heads through humility. But the particular ceremony revived by the English church today has to do with the blessing of the "coronation oils" with which King Edward will be "made the anointed of the Lord" at a future ceremony.

These oils are a mixture of the refined oils in which Mr. Rockefeller deals and the genuine "balm of Gilead," known as the balsam of the East Indies. The mixture will be blessed today in St. Paul's by the archbishop of York and then kept sacredly until needed for use. No such blessing has been performed for coronation ceremonies in England since the time of George III, the anointing of Queen Victoria, King George IV and King William having been done with coronation oils kept in stock since George III's time.

Another of the services of "Maunday Thursday" was the washing of paupers' feet by the highest dignitaries of the English and Roman Catholic churches. In England the archbishops of York and Canterbury, and even kings and queens of the realm, were wont on occasion to follow the example of Christ in the washing of his disciples' feet before the celebration of the last supper.

## Good Friday

Good Friday will be observed in Christ church with morning service and sermon at 9 a. m. the three hours' devotion from 12 to 3 p. m., with addresses on the "Seven Last Words;" and evening service and sermon at 7:30 p. m. "Love, Laying Down Life for Friends" will be the general theme of all the discourses. The public is cordially invited to attend. At any time during the singing of a hymn at the three hours' service those so desiring may feel free to withdraw.

Glasgow, March 27.—Rev. Chas. Eyre, Roman Catholic bishop of Scotland, is dead.

## SUBSIDY BILL WILL NOT PASS

Canvass of the Lower House Shows Majority Against It.

## MESSAGE FOR CUBA

President Will Recommend Special Legislation When Island Is Independent.

## SENT FOR MILES' PLAN

Washington, D. C., March 27.—For several days a quiet investigation has been going on over at the House side of the capitol to determine the prospects of the ship subsidy bill. It seems probable that if a caucus could be held in the measure a bare majority would under ordinary circumstances vote for the subsidy bill much as it came from the Senate. No caucus will be held, however, and an informal poll of the house shows that a large percentage of the republicans are opposed to action on the ship subsidy proposition at this time and that a respectable minority will oppose the measure altogether.

It cannot be made a party measure under any contingency, and the list of republicans who will vote against the bill is so large that with the ordinary Democratic vote they can easily beat it.

Special Cuban Message President Roosevelt, within a day or two, will send a special message to congress announcing the forthcoming inauguration of the new Cuban government on May 20, and the withdrawal of the United States forces from the island.

He will suggest the enactment of legislation necessary to the establishment of diplomatic relations with the new republic by the location of a United States legation in Havana, the appointment of a minister, consuls and other officials. The president will take occasion to call the attention of congress again to the importance of reciprocal relations between the United States and Cuba.

Resolution by Cooper When the house met yesterday Mr. Cooper, (Wis.) chairman of the committee on insular affairs presented the Hurlston resolution of inquiry call upon the President for information relative to the reported application of Lieutenant General Miles to be assigned to duty in the Philippines for the purpose of putting in operation a plan prepared by him for the pacification of the islands. The resolution was adopted without debate.

McKinley Forest Reserve The house committee on agriculture today authorized a favorable report on a bill prepared by the committee as a substitute for pending bills, for the purchase of 4,000,000 acres in the Appalachian mountains in West Virginia, North Carolina, South Carolina, Georgia, Alabama and Tennessee, to be known as "The McKinley Appalachian forest reserve." The sum of \$2,000,000 is made immediately available, the total cost not to exceed \$10,000,000.

## LIST OF ENTRIES IS VERY LARGE

Nearly 500 Wing Shots Will Compete in Grand American Handicap at Kansas City.

Kansas City, Mo., March 27.—According to a telegram received from New York last night there are now 473 wing shots on the entry list of the Grand American Handicap, which will be held in this city next week. Manager Elmer E. Shaner said tonight he expects the total of entries to reach 475. He received the entries to date from Secretary E. L. Banks of the interstate association today.

The handicap committee will meet tomorrow to arrange the handicaps and order of shooting. The handicap is not scheduled to begin until Wednesday morning, and many wing shots who are coming to compete only in that event will not reach here before Tuesday.

Among the celebrities to arrive today were Charles Budd of Des Moines and W. R. Crosby of O'Fallon, Ill. Crosby announced that his three-cornered match with J. A. R. Elliott and Fred Gilbert for the absolute possession of the Sportsman's Review club which was scheduled for Friday of this week will be postponed because of the management of the Grand American Handicap has made no arrangements for it. The match will take place probably on Monday, April 7.

## THE WORLD'S GOLD SUPPLY IS SHORT

Owing to the Closing of South African Mines the Supply is Short \$200,000,000.

London, March 27.—At a meeting here today of the shareholders of the Bank of Africa the chairman said it was calculated that, owing to the closing of the South African mines during the last two and a half years, the world's gold supply was short to the extent of £40,000,000. He thought it surprising that such a serious diminution should not have been more acutely felt.

## MAY BE DOOM OF CRIPPLE CREEK

Independence Giving Out, and Gold Deposits in Colorado Are Believed Nearly Gone.

Cripple Creek, Colo., March 27.—Regarding the condition of the famous Independence mine on Bald Mountain, the following official report was cabled to London this evening by John Hayes Hammond:

"Recent developments have confirmed last report. Regret to report lowest developments unfavorable." From the previous report referred to it is plainly seen that the life of the famous old bonanza producer is limited and depends entirely on the economical extraction of the very low grade.

For the life of the mine it cannot be said. Since it was opened and ore was first shipped it has become celebrated throughout the civilized world.

Coupled with the announcement that the Portland mine will close next week, throwing 900 men out of employment, the general belief is that the ore zone of the district becomes exhausted with depth, and that the future of the camp will follow that of Nevada's bonanzas.

## GOOD RESTAURANT MEAL FOR 1 CENT

A Very Cheap Establishment is Started in New York City as an Experiment.

New York, March 27.—Placards outside a little restaurant which opened for business this morning at City Hall place and Pearl street announced "meals for 1 cent," and the placard told the truth. Inside a person might procure for a copper a large bowl of thick pea soup, hominy, oats or barley. The restaurant is an experiment, which its proprietor Bernard MacFadden, says that he has established to show how cheaply the human body can be palatably and satisfactorily nourished.

Business at the restaurant opened with a rush. The place was so crowded with persons, prosperous and otherwise, that within an hour the supply of soup was exhausted. There were a great many who ate there for the novelty of the thing, and a great many more who appreciated the low prices.

To the newsboys and street arabs of the vicinity the establishment appeared to be a boon. They came in droves and went away happy to tell others of their kind about the new "eat joint," where the "grub" was great and the cost but one cent. They didn't care what the intention of the founder was; they wanted food cheap and they got it.

Among the other things on the bill of fare which the managers say they will vary slightly each week, were beans, peas and potatoes prepared with milk and whole wheat bread, which cost a nickel.

## CHORUS GIRLS WILL ORGANIZE A UNION

Members of Several Companies in New York, Call Upon President Gompers for Advice.

Cincinnati, O., March 27.—Members of the Chaperones company at the Walnut street theater want to organize a chorus girls' union. They hope to enlist the co-operation of President Gompers of the American Federation of Labor, now in Cincinnati in connection with the strike of the brewery workmen.

For several years spasmodic attempts have been made to effect a union of chorus girls who want salaries to be regulated. Mr. Gompers granted the delegation from the Chaperones, consisting of Miss Geraldine Malone, daughter of the veteran tragedian; Miss Ruby Payne of New York; and Miss Sallie Fisher of Salt Lake, an audience today, and promised to consider the matter. They were very enthusiastic over their pet project.

## WILL INVESTIGATE BRIBERY CHARGES

House of Congress Has Taken a Hand in the Danish West India Alleged Scandal.

Washington, D. C., March 27.—In the house this morning, Richardson, democratic leader, offered a resolution calling for the appointment of a committee to investigate the charge made by Capt. Von Christmas, agent of the Danish government, who claims to have made a secret report to his government, setting forth that he is entitled to ten per cent, or altogether about half a million of the price to be paid by this government for the Danish West Indies, part of which he alleges was used in bribing members of the U. S. congress and other American citizens and for subsidizing the American press. The resolution was adopted despite the objections of Payne, the republican leader.

## LONDON MOURNS CECIL RHODES

Death of Great Financier Does Not Effect the Stock Market.

## BURIED IN AFRICA

He Has Left an Immense Fortune in African Securities and Real Estate.

## TO HAVE BIG FUNERAL

London, March 27.—The death of Cecil Rhodes was not a surprise in London and it has not disturbed the stock market.

According to the plans so far as perfected the remains will be transferred to Grooteschoor, Mr. Rhodes' former residence near Cape Town, where the body will lie in state for one or two days. The question of a burial place is yet to be decided. It was the wish of Mr. Rhodes that he be buried at Rhodesia Hills, Rhodesia, and it is altogether likely that this wish will be respected.

To the last Mr. Rhodes took the liveliest interest in his own great projects, and brooked no other mind in planning for the future. In London he ruled South Africa from the office of the South Africa Chartered Company, and after returning to Cape Town he spent all his time planning great moves to be made after the war was over.

Concerning the war itself Mr. Rhodes too knew pains to tell his disgust, both with the government at home and with the military arm, which he regarded as weak and incomplete.

His Fortune Was Great Owing to the great success of the DeBeers mines, the British Chartered South Africa company, and other great South African ventures, Rhodes' fortune had been steadily accumulating. He lost money over the war, but what Rhodes said that made must have been trifling compared with the many millions he possessed.

## BRINGS GRIEF TO CAPETOWN

Rhodes Was Great Prop of British Interests in Africa

Cape Town, March 27.—The news of the death of Cecil Rhodes has caused a sense of profound grief throughout south Africa; for despite the rancor left in the minds of the Dutch by the Jameson raid, he still enjoyed the confidence and esteem of a majority of both races.

It is generally believed here that Cecil Rhodes was the one man who could restore political tranquility to south Africa after the war. It was felt that he could have drawn Dutch and English together, a task seemingly impossible to other leaders.

It is stated that Mr. Rhodes, has made large charitable bequests.

Mr. Rhodes died at 5:57 p. m. Wednesday. He had had a severe sinking spell at noon, from which he slightly rallied. He slept a little during the afternoon, but the watchers could see that the end was near. He was conscious until 5:55 p. m., when he muttered a few words and sank quickly.

Two minutes before he ceased to breathe Mr. Rhodes faintly uttered some words, including the name of his brother, which were interpreted as an attempt to bid a farewell. Soon after death the body was removed from the little seaside cottage at Mulzenberg to Grooteschoor. Mr. Rhodes' home here, where probably the public will be admitted to pass the coffin.

### ODD FANCIES FOR EASTER CUSTOMS

SOME QUAINT THINGS IN EGGS AND FLOWERS.

Many Pretty Conceits in Offerings for the Coming Religious Holiday—Very Peculiar Customs That Will Be Observed All Over the World Next Sunday.

There are many pretty legends about Easter eggs. One of them tells how a little brown wren built her nest near the Saviour's tomb. When the stone rolled away, the wren was released, she started up in fright and a thorn pierced her bosom. The red blood welled from her heart fell upon her eggs and colored them red. And that is the reason, so the legend runs that we have colored eggs for Easter.

The customs of a people in their celebration of their various holidays and the forms and rites of their ceremonies are illustrations in the history of humanity. Many of the Easter customs which are identified with the Christian church descend to it through the pagan civilizations of long ago. From time immemorial a feast observing the vernal equinox has been observed among the nations of men. The semetic race, which afterwards separated into the Arabs, the Jews and the Phoenicians, always celebrated the coming of spring with a feast. The Hebrew Passover and the Paschal feast of the Phoenicians are modified forms of the feasts of their ancestors.

The Phoenicians dedicated the feast to Astoreth, a lunar divinity and goddess of spring. She is also Eostre, the Saxon goddess, and from her our English Easter is named.

At the vernal equinox feast eggs, symbolic of pregnant life and abundance, were offered on the altars and used at the feast. The use of eggs was widespread and an universal custom among the ancients in the celebration of vernal equinox. At the Jewish Passover eggs were used for offerings, gifts and edibles. The Fire worshipping Persians sent decorated eggs to their friends at this period. The Peace egg of the modern Easter is a legacy from remote ancestors. At the Easter celebration of the Christian church the priests colored the eggs red in allusion to the blood of Jesus.

The Easter hare or rabbit is one of the symbols of Easter. In America is an innovation from the Fatherland. To find the origin of why the Easter rabbit lays the bright hued eggs, the record must be traced back through the German legend to the early Saxons who offered sacrifices to the lunar goddesses, to the Phoenicians, and thence to the Indian and Egyptian folklore. In all eastern mythology the hare is the symbol of the moon. It is an nocturnal animal. It hunts and feeds at night. It carries its young four weeks and they are always born with their eyes wide open unlike other members of the rabbit family. In Egypt the land of animal symbolism and worship the hare was called un or open, typical with the moon.

The hare or rabbit is the symbol of the moon. Astoreth or Eostre is the moon goddess. At her festival when eggs were typical of the celebration, the superstition arose that the rabbit laid them. So the little children look for the nest of rabbit's eggs Easter Sunday to find it filled with raily colored eggs that they

### TO YOUNG LADIES.

From the Treasurer of the Young People's Christian Temperance Association, Elizabeth Caine, Fond du Lac, Wis.

"DEAR MRS. PINKHAM:—I want to tell you and all the young ladies of the country, how grateful I am to you for all the benefits I have received from using Lydia E. Pinkham's Vegetable Compound. I suffered for

MISS ELIZABETH CAINE  
eight months from suppressed menstruation, and it effected my entire system until I became weak and debilitated, and at times felt that I had a hundred aches in as many places. I only used the Compound for a few weeks, but it wrought a change in me which I felt from the very beginning. I have been very regular since, have no pains, and find that my entire body is as if it was renewed. I gladly recommend Lydia E. Pinkham's Vegetable Compound to everybody."

are sure no ordinary hen could have laid them.

In Russia on this day of universal rejoicing all the people salute each other with a kiss and the greeting, "Christ be with thee." The children who live in Washington roll colored eggs on the lawn of the White House. This custom is a modified and last remnant of the old English custom of breaking eggs in the church yards, symbolic of Nature releasing life.

In the writings of Pope Gregory there are allusions to the rich and gorgeous attire of the worshippers, who thronged the churches on Easter morning, a custom which has not lasted in the centuries that have passed.

Yesterday Blecknell Bros. began breaking ground for their new warehouse building on the corner of Academy and Wall streets. They intend putting up a large building in which they will do a general jobbing hardware business.

Another good sized congregation listened to Rev. R. C. Denison's address last evening, when he spoke of "The Great Teacher." The sermon was made doubly interesting by the excellent stereopticon views. The last of the series of sermons will be given this evening.

### SCENE FROM "THE CLIMBERS."

"The Climbers" Clyde Fitch's brilliant play of social life, will be presented for the first time in this city at the Myers Grand on Tuesday, April 1, the engagement being limited to "the theme" of "The Climbers" is the pursuit of social distinction by one set of personages in the play, of wealth through dishonest methods by another, and of happiness and high ideals by a third. All this Mr. Fitch treats in serious or satirical manner, illuminating the serious aspect of his drama by many ingeniously diverting bits of characterization and clean comedy. There are four acts, all of which have been mounted with great care. Three of them are interiors and are considered to be the best reproductions yet seen of a home of wealth and fashion.

A splendid company will appear at the Myers Grand tonight in the great success "When We Were Twenty-One." Dick Carews, the leading character is the quiet bachelor of the period. But he doesn't remain one long. Oh! no. The play ends with his head bowed to the yoke of matrimony, and after the most charming four acts ever penned, Dick Carews

### NARROW ESCAPE OF A STREET CAR

The Janesville street railway came very near having to operate its road with two cars today, and it is no fault of the motorman of the car or the engineer on the accommodation engine that they are not.

Last night when the accommodation pulled in from the south the engine was uncoupled and run up towards Jackson street and another engine backed down to take the train to Watertown. The engine that was cut off from the train was backing down on the main track to the round house when along came the street car. It ran up onto the first track and almost onto the second track when off went the trolley and the car came to a standstill.

The motorman ran around behind the car to get the trolley back on so as to go ahead out of danger. About this time the accommodation engine came backing down on the car. Chief Hogan was on the depot platform and seeing the trouble ran down the track to signal the engineer. Evidently the engineer did not see him and kept on going, and when his engine passed the street car the wheels grated against the iron fender on the front of the car.

If the car had been a few feet further along when the trolley slipped off the street railway company would have had a badly damaged car on its hands.

The blues east of Chicago have agreed to make a rate of one cent a mile each way to persons attending the next annual encampment of the Grand Army of the Republic. No action regarding rates for this occasion has yet been taken by the western railroads. It is probable that they will make a rate of 1 1-2 cents a mile as is their custom.

### ROADS TO ISSUE A NEW TICKET

Will Sell Transportation in the Form of Books, Good on All Lines Interested.

An entire new form of ticket is soon to be placed on sale by the railroads operating in the central west. Instead of buying local tickets with coin transportation will be purchased by books. With it travelers will not be bothered about distances, rates or identifications with conductors, agents or others.

The ticket will be in book form and will be sold for \$90. Instead of the strips in the book indicating miles each strip will be marked "5 cents" and will be worth that amount in exchange for a ticket. There will be \$90 worth of these 5 cent strips in each book. When they are exchanged for a regular ticket between any two points the owner of the book will note in a blank in the back of the book the names of the places between which the ticket was purchased, the amount paid and the date. In the book will also be blanks on which the holder signs his name and which will be taken up by the conductor. When the book is purchased the buyer signs his name to a receipt. The book, however, is not signed and may be used by anybody. Refunds on the difference paid for the local tickets and the mileage book rate will be made only to the original purchaser.

## LAWYER PATRICK IS FOUND GUILTY

Convicted of Causing Valet  
Jones to Kill Million-  
aire Rice.

TRIAL LASTED NINE WEEKS

Defendant Maintains His Composure  
After Hearing the Verdict, Leaving  
the Courtroom with Head Erect—His  
Attorneys Move for a New Trial.

New York, March 27.—Lawyer Albert H. Patrick, for the last nine weeks on trial charged with the murder of Millionaire William Marsh Rice on Sept. 23, 1900, was found guilty.

Recorder Goff began his charge to the jury immediately after court convened. He charged them that the people's case rested on three propositions, which, if proved to the jury's satisfaction beyond all reasonable doubt, they should return a verdict of guilty; if not, a verdict of acquittal.

These three propositions, he continued, were: (1) That Jones, on Sept. 23, 1900, placed a chloroformed cone over the face of W. M. Rice, with intent to kill him; (2) that Rice's death resulted from chloroform poisoning, and no other cause; and (3) that Patrick instigated, aided, abetted, or procured the commission of the crime by Jones.

Continuing, the court charged that if Patrick and Jones were engaged in a conspiracy to murder Rice, Patrick was equally guilty with Jones, and that the testimony of the latter, though a self-confessed murderer, was competent, as one of the perils of committing crime was the danger of betrayal by an associate. The law, he said, required the testimony of an accomplice to be corroborated, but the corroboration might be circumstantial and need only tend to connect the defendant with the crime and must not necessarily of itself be sufficient to prove the defendant guilty.

The jury was brought in. Patrick, in charge of a court officer, stepped into the room immediately behind the twelve men. He stroked his beard nonchalantly as Clerk Brophy arose and, in solemn tones, inquired:

"Gentlemen of the jury, have you agreed upon a verdict?"

"We have," said Foreman MacNeil, and a ripple of excitement ran around the courtroom. Patrick took one furtive look at his father and then faced the jury again. The recorder cautioned the spectators to remain quiet, and Clerk Brophy, ordering the jury to rise, said:

"Jurors, look upon the prisoner. Prisoner, look upon the jurors."

Patrick gazed unflinchingly at the twelve men as they turned their eyes upon him.

"How say you, gentlemen of the jury," continued Clerk Brophy. "What is your verdict?"

"Guilty."

Patrick never flinched. Old Captain Patrick squared his shoulders.

"Do you find the defendant guilty of murder in the first degree, as charged in the indictment?" asked the clerk.

"Guilty of murder," responded the foreman.

Mr. House arose and asked that the jury be polled, which was done. Mr. House then asked for time in which to prepare the motions for a new trial and to set aside the verdict. The recorder set Monday week as the time of passing sentence.

Patrick walked out, head still erect, and motioned to his father, as he passed down the prisoners' gangway to meet him at the door leading to the prison pen. The old man got up heavily and walked slowly toward the door. He was halted by a court attendant and had to sit until court was adjourned, when he joined his son.

## Kodol Dyspepsia Cure

Digests  
what you  
Eat

In speaking of indigestion, Dr. Lewis says: "It is deplorable that so many hundreds of thousands of Americans suffer from indigestion. It means that the blood of the nation is becoming impure; for undigested food poisons the blood. Unless a method is devised for overcoming this malady, our race must deteriorate."

Many persons use soda tablets to neutralize fermenting food; this only makes a chemical receptacle out of the stomach, and injures its sensitive structures. Others feed on pepsin, which is better, but not sufficient, for it digests only albuminous foods.

The preparation best fitted to relieve and absolutely cure indigestion is KODOL DYSPEPSIA CURE. It contains every known digestant and digests every kind of food. Its use is a common sense method of treating all stomach troubles, and the results are always certain.

## FEARED CONTAGION MAY HAVE SPREAD

Home of Mrs. Anna W. Haskell, on East Milwaukee Street, is Put Under Quarantine.

The home of Mrs. Anna W. Haskell, 204 East Milwaukee street was quarantined this morning on account of her daughter, Zoe Haskell being declared affected with smallpox. Mrs. Haskell is a dressmaker and a number of families around the city who have received work from her during the last week are anxious about themselves and several have taken the precaution today to get vaccinated.

It seems that Miss Haskell has been ailing for a week and has been around where her mother was making dresses and other work. She was examined by a doctor last week and the disease called chicken pox. This morning the case was fully developed and the doctors did not hesitate about calling it smallpox.

D. Sutherland of the state board of health stated that every piece of work that had been turned out by Mrs. Haskell during the last week should be followed up and fumigated to prevent the spread of the disease. The case is especially bad on this account that so much work has been turned out and delivered to families around the city while the young girl was sick that it is liable to cause a spread of the disease.

## LABOR TROUBLES SMOTHERED OVER

Looks as if Local Contractors and Builders Would Have a Peaceful Season.

The threatened labor troubles seemed to have been smoothed over and there will be no trouble on April first between the men and their employers. The men demanded a nine hour day with ten hours pay all of which was agreed to by the employers and contractors. All the local unions are together in this agreement except the masons.

A short time ago it looked as if Janesville would have a strike on its hands on April first. All kinds of labor from the teamsters up have been organized and a general revision of hours and pay demanded. At first the employers and the contractors objected to this and some contracts for building were held open until after the trouble was settled. It looks now as if the contractors and builders would have a peaceful season of it this year as far as labor is concerned.

In the short time we have been here we have already acquired the name of having the cheapest, most artistic hats in the city. We have hats to suit all ages and purses. "Costly" they call as they purse can buy. But not expressed in fancy; rich, not gaudy. For the apparel of proclaim the man.

The Golf club smoker has been postponed until some time later in the season for various reasons. Some of the promoters of the affair are busy with their Easter trade and could not spare time to attend to the necessary arrangements.

## 15TH ANNIVERSARY OF THEIR WEDDING

Mr. and Mrs. Thomas Cook of 205 South High Street, Had Family Gathering Last Night.

A very happy event occurred at the home of Mr. and Mrs. Thomas Cook, 205 South High street, where all of their children gathered to celebrate the forty-fifth anniversary of their marriage. At the evening repast the entire family gathered around the festive board and a most happy gathering it was, it being the first time the family of four generations, had been together at one time.

Those present at the banquet were Mr. and Mrs. Thomas Cook, Mr. and Mrs. George Schaller of this city; Mr. and Mrs. George Cook and two children of Chicago, Mr. and Mrs. E. A. Cornwell, and son Archie of Clinton; Miss Myre Cook of this city and Mrs. Laura Nelson and son Orville, of Rochelle, Ill.

In the evening two flashlight pictures were taken; the first of Mr. and Mrs. Thomas Cook and their children, the second, of four generations, Mrs. Cook holding her great grandson in her lap.

A number of the intimate friends of the family were invited in and the hours pleasantly spent in social good cheer and progressive chess. Mrs. Cook was presented with several very nice presents as mementoes of the event.

## SURPRISING RESULTS.

A Simple Internal Remedy Makes Remarkable Cures of Catarrh. People who have used sprays, inhalers, salves and washes for catarrh and have found how useless and inconvenient they are, will be agreeably surprised at results following the use of a pleasant, internal remedy in tablet form; druggists everywhere admit that Stuart's Catarrh

Tablets, which they sell at 50 cents for full sized treatment is the safest, most effective and popular of all catarrh remedies.

Nearly all the cheap cough mixtures and throat lozenges contain opiates; these cheap medicines give a temporary relief, especially with little children by destroying their sensation; the irritation in throat, which causes coughing is temporarily removed, not by removing the cause but by deadening the nerves of feeling the irritation is not felt although it is still there and will promptly return.

Stuart's Catarrh Tablets is the best remedy to remove catarrhal secretion, whether in the nose, throat or stomach, because they are composed of wholesome antiseptics Blood root, Red Gum from Eucalyptus tree, etc., when you use these tablets you know what you are putting into your system and not taking chances with cocaine, opiates or similar poisons found in so many catarrh cures and cough medicines.

Dr. Ramsdell in commenting on catarrh cures, says: "I can heartily recommend Stuart's Catarrh Tablets, because they contain no cocaine nor other dangerous drug found in so many advertised catarrh cures. I have known of many cases of long standing catarrh of the head, and throat completely cured by the daily use of these tablets for several weeks. One case in particular, which I could not reach with an inhaler or spray and where the catarrh caused daily headaches and a noticeable loss of hearing was entirely cured by this harmless but effective remedy."

Dr. Wainwright, says: "I never hesitate to prescribe Stuart's Catarrh Tablets for catarrhal headaches and catarrhal deafness because I know them to be perfectly safe for child or adult and have seen many remarkable cures resulting from their regular daily use; because they are advertised and sold in drug stores is no reason why any good physician should seize upon the means of cure wherever found."

Stuart's Catarrh Tablets are especially valuable for catarrhal colds in children because they are pleasant to the taste and may be used freely to break up severe colds and croup at the very beginning.

One Better. They were visiting Belle Vue together. He was a very shy young man, and the girl who leaned on his arm was well, one of Manchester's bonnie lassies.

When they came to the elephant the girl nervously (?) tugged at the young man's arm, and exclaimed: "Oh, Charlie, will it bite?"

"No, dear, of course not," said the young man, with wonderful temerity. "Elephants can't bite, but they can tug."

"Oh, Charlie," said the girl, with a distracting smile, "I don't mind that!" And Charlie got so jealous that he took her to see the tiger.—London Answers.

A CARD. We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

"It was I that made the town," says the self-extolling Dave. "On the map I set it down. But for me 'twould be a grave. The conventions that arrive are what keep the trade alive. Those conventions I contrive," says the self-extolling Dave. "Tis to view my stately shape, and my oratory hear that, with eyes and mouth agape, people flock from far and near. 'Tis to see me and rejoice, and hear my silver voice. After that perhaps their choice is to drink Milwaukee beer. Listen, while in words ornate," says the self-extolling Dave, "my achievements I narrate." Then he gives his arm a wave. "See that crematory, where carbage melts into hot air! see that bridge! I put them there!" says the self-extolling Dave.—Evening Wisconsin.

## Rheumatism

**The Cause:** Rheumatism was once supposed to be a disease of bones, muscles and joints, its painful symptoms the outcome of a severe cold. The progress of scientific medical research has revealed the fact that rheumatism is a blood disease caused by uric acid poison, the result of an impoverished or de-ranged condition of the blood, traceable to disorders of the stomach, bowels, liver or kidneys. Rheumatic pains may be alleviated by the application of external remedies, but the work of cure must be commenced at the root of the disease.

**The Effect:** Lame back, arms and limbs; stiff and swollen joints; acute pains in joints; flesh sore to the lightest touch in spots; this condition often extending over the entire body.

**The Cure:**

WAGE CAMPAIGN  
UNTIL MIDNIGHT

Red Hot Political Battle in Progress  
in Milwaukee—Rose Seems to  
Be on the Run.

Milwaukee, Wis., March 27.—The Milwaukee campaign now drawing to a close is one of the most interesting that has ever taken place in Milwaukee, for several reasons. Rose, the democratic candidate, two years ago had the support of a great many leading republicans including Pfister, the stalwart leader, but now an effort is being made by the stalwarts to show the people of the state that they are powerful enough, even with the local half-breeds against the regular nominee of the republican convention, to elect their man.

For the first time in his life Rose is being fought by a candidate who can talk and who is talking every day and every night, somewhere to workmen or others. Last night Major Anson went to the glass factory district in the Seventeenth ward, and at midnight luncheon time discoursed on the issues of the day to several hundred men, who appeared to enjoy what he had to say.

Rose made seven speeches last Sunday in different parts of the city, something in campaigning never before heard of in this city. The republicans are charging Rose with extravagance and Rose is telling his hearers what he has done to make Milwaukee a great city. That is about all there is to the fight so far as Rose and Anson are concerned.

The issue, however, is between the stalwarts and the friends of La Follette, both sides desiring to show the state that they are in the saddle locally and able to elect or defeat.

In Circuit Court

The case of Nathan Hatch et al vs. Susan Lushan et al is on trial today in the circuit court chambers before Judge Dismiddle. The case was brought here on a change of venue from Walworth county and involves the question of title to land. Simmons and Tyrrell of Lake Geneva, appear for the plaintiff and H. A. Burdick, Ed. M. Lowry, Bushnell, Watkins and Moses, and Lyon and Norton are for the defense. Among those attending the trial are Lewis Curtis, L. W. Fuller, W. H. Hatch, H. M. Hatch, Misses E. A. Hatch and M. H. Hatch of Lake Geneva, H. H. Hatch of Zenda, Mrs. J. Stonall of and Mrs. L. A. Morehouse of Hebron.

Wallace Cochrane

In the notice of candidates that appeared in yesterday's Gazette, the name of Wallace Cochrane, the nominee for constable of the Third ward, was inadvertently overlooked.

Mr. Cochrane has long been recognized as one of the best officers in the city, and his name has frequently been mentioned for the office of sheriff.

If he aspires to that position in the coming fall election his chances for success will be good. His experience with criminals and with criminal classes makes him a valuable officer, and the ward will have a good constable so long as he is willing to serve in that capacity.

Dr. Buckmaster a Witness

Dr. S. B. Buckmaster left this morning for Fond du Lac where he will be an expert witness for the defendant in the case of Kath vs. the Wisconsin Central R. R. Co. Kath formerly resided in this city and was injured at one time by falling from the runway of the Peoples' Ice company house, while handling ice. His back was hurt at that time and he was laid up for some time. He has now brought suit against the railroad company for \$10,000 damages for injuries received while employed as a locomotive fireman by the railroad company. The case is being hotly contested by both sides and a number of experts have been summoned.

Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."
